

Application No. 09/849,513

PATENT
Docket No. 70325-040017REMARKS

Applicants wish to thank Examiner Vig for extending the courtesy of an interview to Applicants' representative, Pablo Tapia, on November 21, 2005. Examiner suggested that non-computer communication formats be exemplified in Claim 1. As discussed below, Applicant has addressed the Examiner's observations regarding non-computer communication formats.

In response to the Office Action dated September 19, 2005, Applicants have amended Claims 1-7, 11, 13-17, 19, and 21-24.

Applicants submit that the claims are in condition for allowance.

Claim Rejections - 35 U.S.C. § 103(a)

Claims 1-24 have been rejected under 35 U.S.C. § 103(a) as being unpatentable over Information in eFax.com (eFax) in view of Facsimile Support/400 Version 3 (IBM).

Claim 1 has been amended to include "wherein the non-computer communication format can be telephonic facsimile or regular mail." In addition, Applicants have amended Claims 1, 11, 14 and 19 to clarify that an electronic transaction document includes a preferred communication format indicator for each of the plurality of recipient parties of the business transaction.

Applicants submit that eFax does not teach an electronic transaction document including a preferred communication format indicator. In like manner, the IBM reference does not teach or suggest an electronic transaction document including a preferred communication format indicator for each of the recipient parties.

Therefore, Applicants submit that the rejection of Claims 1, 11, 14 and 19 be withdrawn. Further, claims 2-10, 12-13, 15-18 and 20-21 depend respectively from independent claims 1, 11, 14 and 19. Therefore, Applicants also submit that the rejections of these Claims also be withdrawn.
